Actions To Stop Doing

What are things we should stop doing?

1. Editing someone else's branch without creating a new, separate branch of it, then sending a PR to the original branch.

Actions To Keep Doing

What are things we should be doing?

1. Add more testing and code coverage for the front end.
2. Having regular meetings demoing our progress.
3. Adding more testing to frontend components.
4. Add more documentation for sprint activities.
